Zatonya (Series)

11 mins X 15 eps
2D Animation | Comedy | Family | Fantasy | Absurd

Sırrı is an interesting inventor with a wide imagination and mind-boggling inventions that are far beyond his time and refer to the present day. He almost completely changes Zatonya for the good of everyone. Exciting adventures shaped around inventions and discoveries await Sırrı and the neighborhood, who strive for the good of Zatonya. The age is the Stone Age, when nothing has been found yet. And, there is no limit to the absurdity in the series. For instance, at that time, he finds the remote control case, but there is no remote
control device, or he invents the chocolate donut making machine, but chocolate has not been discovered yet, etc. The absurdity in our series somehow overlaps with today's nonsense. Such overlap situations are handled in a very humorous way. In short, the absurdity of today's world will be touched, even if it was a million years ago, and this contradiction will be given to the audience with a very entertaining sharp lines.
